SCIENCE CLUB

SCIENCE BEHIND TRADITION.

Cosmic Alignment

- Astrological alignment during the event enhance spiritual energy and make it highly auspicious.

- * The Mahakumbh mela is celebrated based on scientific principle of astronomy and astrology and relationship between these and human biology.

- * It occurs when Jupiter aligns with sun and moon amplifying earth electromagnetic fields.

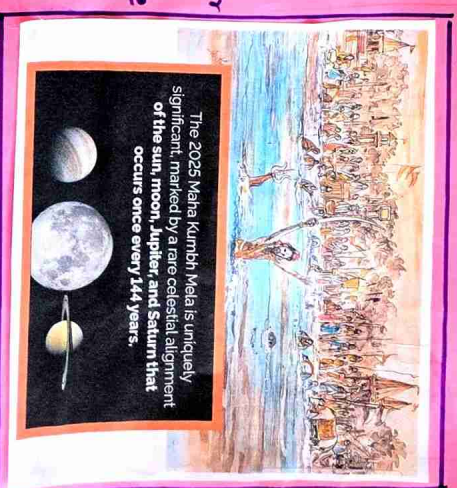

- * Jupiter orbit around the sun takes about 12 yrs that's why the mahakumbh mela is celebrated every 12 yrs.

- * It is called "Maha" kumbh mela because this 12 yrs cycle occur 12 time (12x12=144) the 12th kumbh mela is called "maha" kumbh or "purva" kumbh mela.

- * Research suggests that planetary alignment can affect earth's electromagnetic field, which may impact human biology.

- * Studies in bio-magnetism suggest that human bodies emit electromagnetic force and respond to changed field in their environment.

- * The strong belief in the purifying power of the holy water during the Maha kumbh may contribute to a sense of renewal & positive change, even if there's no direct physical effect
