Handwritten notes on a piece of paper, likely a page from a notebook. The text is written in cursive and is somewhat faded. It appears to be a list or a series of points, possibly related to a topic in biology or environmental science. The notes are written on a piece of paper that is placed over a background of a colorful, abstract pattern.

Q. Explain the relation between soil & health. (2 marks)

Introduction

Soil is one of the important and valuable resources of the Nature.

If life is living on the earth would be impossible without healthy soil.

- 25% of human food is derived from the earth.
- Land - earth = soil
- Soil - is critical - no life plant get nutrients from soil & animals get nutrients from plants.

Some major Components

1. Mineral Particles
2. Organic Matter
3. Water
4. Air
