ACTIVITY REPORT

1	Names of the Programs/Camps	Educational visit to Sewage treatment plant at Ballari
2	Department / Associations involved	SWASTHAVRITTA AND YOGA RSBK ROGA NIDANA & AT
3	Venue	Ballari
4	Conducted on	18.07.2026
5	Objective of the Programs / Camps	Objective of a Modern Sewage Treatment Plant (STP) The primary objective of a modern sewage/wastewater treatment plant is to protect public health and the environment by safely treating wastewater before it is discharged or reused, while minimizing resource consumption and recovering valuable byproducts where possible.
6	Activities carried out during the program	Modern Sewage Treatment - Modern sewage treatment plants are based on biological principles of sewage purification. In this the purification of sewage is brought by the action of anaerobic and aerobic bacteria. The treatment of sewage may be divided into two stages Primary and Secondary treatments. In primary treatment (Primary purification)- the solids are separated from the sewage partly by screening and partly by sedimentation and subjected to anaerobic digestion. In secondary treatment (secondary purification)- the effluent is subjected to aerobic oxidation.
7	Resource person	
8	Guests	Faculty members - Dr Karthik Associate Professor department of RSBK Dr Srujana Associate Professor Department of swasthavritta and yoga Dr Shwetha Sssistant Professor Department of RSBK Dr Vinutha Assistant Professor Department Roga nidana Dr Maheshwari Assistant Professor Department of swasthavritta and yoga
9	Targeted population	2 nd Professional BAMS Students – Agnivesha Batch
10	Beneficiaries	34 ✓
11	Any other relevant information	-
12	Photograph/ Press clipping
