**Ref: NAAC 7.1.8** **Date: 29-10-2026**

**7.1.8. Institutional efforts/initiatives in providing an inclusive environment i.e., tolerance and harmony towards cultural, regional, linguistic, communal socio-economic and other diversities. Add a note on how the Institution has leveraged its location for the services of the community**

The Institution is committed to providing an inclusive, safe, and harmonious environment that respects cultural, regional, linguistic, communal, and socio-economic diversity. Equal opportunities are provided to students, faculty, and staff without discrimination based on caste, religion, gender, language, region, or economic background. The institution promotes mutual respect, tolerance, unity, and a sense of belonging through academic, cultural, co-curricular, and extracurricular activities.

Cultural celebrations, national festivals, seminars, workshops, health awareness programmes, and student activities encourage interaction among individuals from diverse backgrounds. Students are motivated to participate in group activities that develop teamwork, cooperation, empathy, and respect for different traditions and viewpoints. The institution encourages effective communication with people speaking different languages and promotes ethical conduct, gender sensitivity, social responsibility, and professional integrity.

The institution strives to support students from different socio-economic backgrounds through academic guidance, counselling, and awareness of available scholarships and welfare schemes. Grievance redressal mechanisms and appropriate committees help address concerns and maintain a peaceful, respectful, and inclusive campus environment.

Utilization of Institutional Location for Community Services

The institution utilizes its location to provide healthcare services and health education to the surrounding community, particularly rural and underserved populations. Through its hospital and community outreach activities, it offers affordable healthcare services, consultations, and health awareness programmes. Special emphasis is placed on maternal and child health, antenatal and postnatal care, menstrual hygiene, reproductive health, women's health, nutrition, and preventive healthcare.

Health camps, awareness rallies, educational sessions, and outreach programmes help extend healthcare services to people with limited access to medical facilities. These activities also promote awareness of healthy lifestyles, disease prevention, and the importance of timely medical consultation.

Students are encouraged to participate in community-based healthcare activities, enabling them to understand local health needs, cultural practices, and socio-economic challenges. These initiatives strengthen the relationship between the institution and the community while promoting accessible, inclusive, and compassionate healthcare. Through these efforts, the institution fosters social harmony, respect for diversity, and a commitment to community welfare.
