	SUPPLIED CURRICULUM TOTAL	**750**	**1490**	**2240**	**41 unique department subject hours (shared KC/EM hour counted once)**

Reconciliation: AyUG-SA3 (50 lecture + 100 non-lecture = 150 hours) is included because it was present in the earlier supplied subject breakdown and is needed to match the stated totals of 750, 1490 and 2240.

Weekly assignment check: Department rows represent 41 unique subject hours; the shared KC/EM hour is shown under both departments but counted once. Skill Lab for all departments adds 1 shared hour, bringing the timetable to 42 scheduled hours.

Counting method: The 10:00 AM-12:00 PM blocks count as two hours. Each time block is one class meeting; the weekly column shows meetings and total scheduled hours.

Faculty load total	Team-taught periods are counted for each named faculty member for the full block duration.	**59**	**Shared class**	Friday Skill Lab (1h) for all departments.	**1**

How to read the total: The 59 faculty hours are assigned teaching workload. When two or more faculty are listed for one practical, the full practical duration is counted for each listed faculty member. This makes faculty workload totals larger than student timetable hours. Skill Lab is a shared one-hour session for all departments; no individual faculty names were supplied.
